Period for Reply -- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

Continuation of Disposition of Claims: Claims **withdrawn** from consideration are 185-187, 190, 192, 197-199, 203-205, 208, 214, 216-256, 259 and 260.

DETAILED ACTION

In view of the election, please note the change in the Art Unit and the Examiner assigned for the case.

This office action is in response to applicants' communication filed on 7/23/08.

1. Claims 184-272 are pending in this application.
2. Applicant's election without traverse of Group I, compounds, composition and method of use wherein the compounds is of formula (I) in the reply filed on 7/23/08 is acknowledged.

Applicants' election of species of compound 264 is also acknowledged. Thus, claims 185-187, 190, 192, 197-199, 202-205, 208, 214, 216-256, 259-260 stand withdrawn, being non readable on the elected species. Claims 184, 188-189, 191, 193-196, 200-202, 206-207, 209-213, 215, 257-258 and 261-272 will be examined to the extent they read on the elected species and closely related subject matter.

Priority

3. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Drawings

4. The drawings were received on 3/17/05. These drawings are acceptable.

Information Disclosure Statement

5. The information disclosure statement (IDS) submitted on 3/17/05 is in compliance with the provisions of 37 CFR 1.97. Accordingly, the information disclosure statement has been considered by the examiner.

Claim Rejections - 35 USC § 112

6. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

7. Claims 261-272 provides for the use of compounds, but, since the claim does not set forth any steps involved in the method/process, it is unclear what method/process applicant is intending to encompass. A claim is indefinite where it merely recites a use without any active, positive steps delimiting how this use is actually practiced.

Claims 261-272 are rejected under 35 U.S.C. 101 because the claimed recitation of a use, without setting forth any steps involved in the process, results in an improper definition of a process, i.e., results in a claim which is not a proper process claim under 35 U.S.C. 101. See for example *Ex parte Dunki*, 153 USPQ 678 (Bd.App. 1967) and *Clinical Products, Ltd. v. Brenner*, 255 F. Supp. 131, 149 USPQ 475 (D.D.C. 1966).

8. Claims 196 and 200 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

These claims define substituents and integers in terms of "preferably", and in doing so renders claims indefinite.

Claim Objections

9. Claims 261-272 are objected to under 37 CFR 1.75(c), as being of improper dependent form for failing to further limit the subject matter of a previous claim. Applicant is required to cancel the claim(s), or amend the claim(s) to place the claim(s)

in proper dependent form, or rewrite the claim(s) in independent form. These claims depend from canceled claims, for example claim 261 depends from canceled claim 179.

Claim Rejections - 35 USC § 103

10. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

11. The factual inquiries set forth in *Graham v. John Deere Co.*, 383 U.S. 1, 148 USPQ 459 (1966), that are applied for establishing a background for determining obviousness under 35 U.S.C. 103(a) are summarized as follows:

1. Determining the scope and contents of the prior art.
2. Ascertaining the differences between the prior art and the claims at issue.
3. Resolving the level of ordinary skill in the pertinent art.
4. Considering objective evidence present in the application indicating obviousness or nonobviousness.

12. This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

13. Claims 184, 188-189, 191, 193-196, 200-202, 206-207, 209-213, 215 and 257-258 are rejected under 35 U.S.C. 103(a) as being unpatentable over Olesen et al(US 5,696,138) or Salituro et al(US 6,093,742).

Olesen et al, columns 2-4 or Salituro et al, column 2, teach structurally similar compounds and composition as claimed in herein. Note B,D,E and F can be C, R1-R4 and R11 and R12 can be substituents similar to herein, see column 2 of the former reference. Likewise, W and Z can be aryl with similar substituents as claimed in herein, see column 2, lines 1-35 of the latter reference. The difference between the references and herein claimed compounds and composition is that the references have not made some of the compounds made in herein.

It would have been prima facie obvious to one of ordinary skill in the art at the time the invention was made to obtain compounds within the generic disclosure of the references, because they are structurally so similar to these claimed in herein, with the reasonable expectation of achieving a successful composition, absent evidence to the contrary.
